## PROJECTS

Our Projects division is professionally managed with specialized skilled staff and particularly focused on the global transportation of heavy lift units, Oversized cargos, Break Bulk and project related shipments either as an ocean transportation only, or as an integrated transportation to the jobsite. We provide

specific marine vessels tailored to job requirements and can source any type of special carrier on the basis of voyage charter, part charter, time charter. Our experience in this industry wide includes a range of Projects including Power Plant equipment, Transformers, Incinerators, Oil & Gas, Machineries, Fabrication items, Electrical Towers, Cement Plants etc. Through our network we cover all Continents for optimal service and exposure to ensure complete handling of all projects including door to door transport. Our strength is our ability to keep in mind even the Smallest details in the logistics operations that are critical to completing a project successfully. Today, and indeed every day, sees our team apply their passion for finding better and smarter ways of solving your logistics requirements. It is their unshakeable belief that nothing is impossible which is responsible for the continuous improvement of our Customer Service.
