PROJECT AND ODC CARGO

“Project cargo” is a term used to broadly describe the national or international transportation of large, heavy, high value, or complex pieces of equipment. That’s why it has fewer options of services, routes and transshipment points than non heavy equipment shipments, so it is essential to partner with a Project Cargo specialist.

Project Cargo requires immense expertise, experience and knowledge.

ABS Logistic can meet all your requirements. How?

- Quality Engineering team
- Deep Analysis of
 - ❖ Complexity
 - ❖ Maximum Weight and Dimensions of Carrying Equipments
 - ❖ Consolidation Points
 - ❖ Client Delivery Obligations
 - ❖ Origin Facilities and routes
 - ❖ Cost Effective Solution, of each Cargo

Automotive Logistics

Automotive Logistics is dedicated to the strategy, management and movement of components, finished automobiles and service parts, from Tier supplier to assembly plant and on to the dealer, and everything in between. Delay in supply of even one component brings the complete operations at stand still incurring heavy losses to the manufacturer.

Team ABS understands the time critical operations of our automobile clients and offer below specialised services :

- ➔ Complete Vehicle Movement
- ➔ Spare Parts Transport.
- ➔ Time Critical Deliveries.
- ➔ Replacement Parts of Imported Vehicle Under Warranty.
- ➔ Engine Transportation abroad

Pharmaceutical Logistics

The pharmaceutical industry has grown over the years, and this has made the case for the ever growing expediting shipping and logistics challenges. Country Specific Rules and Regulations makes this logistics branch more complex and sensitive.

As a pharmaceutical logistics partner, ABS Logistic assure your demand for quality and safeguard your company's name through optimal quality management

ABS Logistics Offers:

- Temperature Controlled Shipments
- Special Attention is paid from Pick Up to Delivery
- Complete Documentary Formalities
- Direct Stuffing from Refrigerated Trucks to Refer Containers
- Clearance Formalities from Drug Controller
- Priority Custom Clearance

20 Most Promising Logistics Service Providers – 2018

Interplay of infrastructure, technology and service providers define the logistics industry's role in a nation's economy. Indian logistics industry provides employment to more than 12 million people and has registered a CAGR of eight percent during the last five years. Also, Economic Times Survey predicts that Indian logistics sector will reach \$215 billion by 2023 and statistics show that India has improved its all the components of logistics performance index (LPI).

Despite the most rapid growth in the industry, the logistic industry currently faces a myriad of challenges that include insufficient regulation of transport vehicles, inefficient IT and warehousing & distribution facilities. Realizing that it's high time now for the logistic industry to play a vital factor in our country's growth and support the national economy, the government has stepped up its budget allocations for building world-class road networks, integrated rail services, modern cargo facilities at airports, and modern logistics parks. The implementation of GST, supported by the backing of e-Governance sector and operations

ABS Logistics: Single Window Solution for All International Logistics Requirements

In International Logistics, depending upon the shipment items (air-seal/FOB), there are several companies involved, which require lot of coordination. The coordination and follow-up work setup the valuable time of organizations, which could have been, in an ideal world, devoted to productive things. Mediating 'you problem, we deliver' motto, ABS offers solutions to its clients, where all coordination work is handled by its one team and clients are updated on their shipment status. Acknowledged and reported as a global Single Window & cargo services provider, it is a single window solution for all international logistics requirements, offering comprehensive solutions to its clients, which enables them to improve & streamline their supply chain processes and focus on production/product.

“The main focus is on providing seamless services to our clients. On same, which stands for 'Always Best Services', small teams will seem about our commitment towards our customers,” remarks Abhishek Jain & Abhinav Jain, Directors, ABS Logistics. Its comprehensive presence in the industry can be attributed to its strong international connections that are brilliant in handling shipments to & from across the globe.
