Hawthorn Logistics: *The Strongest Link in Your Supply Chain*

About Us.

Hawthorn Logistics was established in 2007 by two industry veterans who have each worked in the corporate freight world for more than 30 years. Understanding the issues that drive customer requirements is part of their DNA and they have consequently developed the company to meet and exceed those needs.

As the company continues to grow they have taken staffing levels from 3 at the beginning to its current 32.

They have moved from their initial modest 4,000 square foot building to a state of the art facility incorporating 3,500 square feet of offices with a 65,000 square foot narrow aisle, fully secure warehouse. They continue to work on growing their reputation in the market for excellent service at acceptable cost.

It looks like Hawthorn Logistics is doing something right, here is a selection of recent customer comments : names withheld to protect the innocent.....

"We awarded Hawthorn Logistics our sea freight business because they fully understand our needs and never let us down" Sea freight exporter, Nov 2018.

"Their attention to detail is second to none and both ourselves and our customers feel very confident when HLS are managing our shipments" Air Freight Client, Feb 2019

"There is a reason why they continue to win awards, they are exceptionally good at what they do" Long term 3PL customer, Apr 2019

"We will continue to give Hawthorn more business in 2020, we love working with the team" Courier customer Jan 2020
