ACECARGO
WORLD WIDE SHIPPING

History

- Acecargo is a family business funded in 1985.
- With a vast experience into the freight forwarding market.
- We give services of import and export of loads, to a variety of industries.

Mission

- Mission: Our mission is to keep under control the logistic of our clients at every moment. Inform and give advise constantly to make every operation as clear and efficient as possible.
- Inform: Each assigned operation has different stages and each one must be monitored by our team. In parallel, we always maintain our clients informed about the current status of their cargo.
- Advisory: We are always looking for the cheapest and shortest transit for each operation.

Vision

- Vision: Acecargo will always look to make long term relationships with our clients. And the reason why, it's because we want to participate along the whole logistic chain, to achieve economies of scale, and efficiency for our clients. This is the biggest differentiating element that our company wants to portray in the market.

¿ Why Acecargo ?

Customer service:

- We go further than our competition, since we are always worried about our clients, not losing the care of their operations, so they are always aware of where their merchandise is. This procedure works because Acecargo partners are monitoring each of the operations along the whole process.

Our suppliers:

- We have alliances of several years with our suppliers (shipping lines, airlines, transport companies, agents, storage, etc.) and because of them, we have consolidated a quality service, that works according to our customers needs, maintaining competitive market prices.

Advisory:

- Provide guidance to our customers it's a fundamental point, our purpose is to influence the logistic chain, in a way that we can generate mid and long term improvements.

With a global network of agents that allow us to attend our clients from and to anywhere in the world.
