

BALTIC MARINE

LAND | SEA | AIR

FREIGHT SERVICE

ABOUT

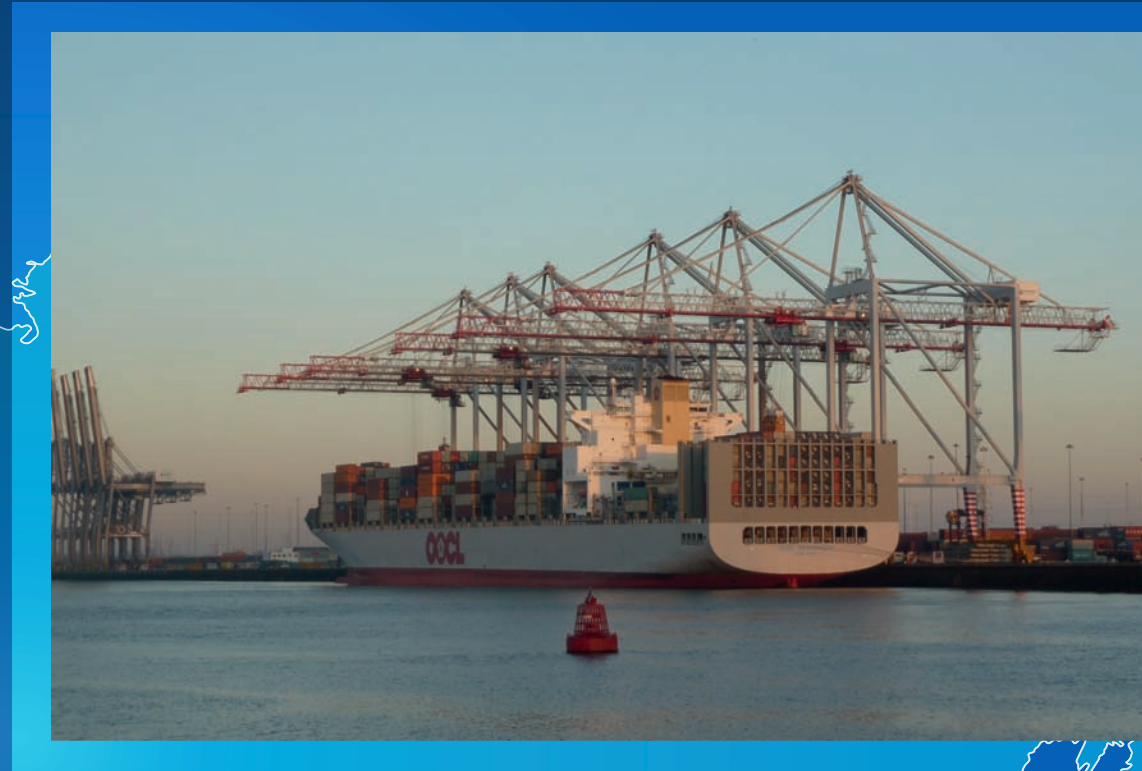

Baltic Marine Spedition provides all types of transportation by sea, air, road or railway, and offers a wide range of freight management services worldwide. Our company has all the necessary licenses and we work with trusted partners all over the world. We are experienced and constantly growing. Health, Safety & Environmental issues are of paramount importance in everything we do.

Our company's main office is located in Klaipeda, Lithuania, close to the port. This port is the northernmost ice-free port on the Eastern coast of the Baltic Sea. It is one of the most important and major transport centres in Europe, and connects sea, land and railway routes from the East and West.

The Baltic Marine Spedition company is located in Lithuania with its main office in the Port of Klaipeda. The Baltic Marine Spedition company team of professionals offer complex freight forwarding solutions – we provide all the services that any company could need. We will pick up your cargo from its location and transport it to its place of delivery, and considering its size, time and place of delivery, make all the necessary preparations.
